

# Universal Multi Box (UMB)

Universal Multi Boxes are high-quality packaging boxes for carbide inserts, components, screws, jewelry making, hobby products, etc. Universal Multi Box is designed to provide extra protection of valuable inserts during the transportation of the item. The lid is wrapped around the box to keep the box closed at all times. In addition, to its unique design, the box offers enhanced protection, making the UMB line the pinnacle of professional insert packaging.

## Features & Benefits

- > Best protection of the inserts
- > Latch to ensure that the package will not open
- > Lid wrapped the box
- > Closes by pushing the lid toward the latch
- > Functional and user-friendly
- > Environmentally friendly
- > PCR and / or recyclable material
